Bentonville, AR 72712

Professional Summary

Adaptable technical professional with a solutions-oriented mindset and 6+ years of diversified experience ranging from small-scale business to global-scale enterprise environments. Highly skilled in advanced security investigations, intricate network troubleshooting, root cause analysis, technical documentation, and leadership. Supporting credentials include GCIH, CCNA, Security+, Network+, MITRE ATT&CK Foundations, NSLS Advanced Leadership, and the Dale Carnegie Breakthrough to Success course.

Professional Experience

MAY '24 - PRESENT

Intrusion Analyst II | Walmart, Bentonville, AR

- Conduct end-to-end investigation and validation of security incidents using SIEM, EDR, and identity telemetry
- Develop investigative narratives by correlating multi-source data to determine scope, intent, and impact
- Analyze user behavior, authentication patterns, and system activity to identify potential compromise or misuse
- Leverage threat intelligence to validate indicators and enrich investigative findings
- Document findings in clear, defensible reports for cross-functional stakeholders and remediation teams
- Perform targeted log analysis and KQL-based hunting to identify suspicious patterns and emerging threats beyond alert-driven workflows
- Collaborate with internal teams to support incident response and investigative efforts requiring detailed evidence review and clear communication of findings

OCT '21 - MAY '24

System Network Administrator | Walmart, Bentonville, AR

- Conducted structured investigations into complex network and connectivity issues across global store environments using evidence-based analysis
- Analyzed packet captures, routing behavior, and device-level telemetry to identify root cause and validate resolution paths
- Correlated data from multiple sources to support accurate issue identification
- Collaborated with internal teams and external providers to resolve service-impacting incidents and dependencies

Earlier Experience

FEB '21 - OCT '21

Desktop Support Technician | Defense Health Agency, San Antonio, TX

- Provided advanced desktop support for devices used by military healthcare personnel in a global environment.

JAN '20 - FEB '21

Google Fiber Network Technician | ITC Group, San Antonio, TX

- Installed Google Fiber service in four homes per day while ensuring reliable network connectivity.

Core Skills

Incident analysis	Technical documentation
Root cause analysis	Stakeholder communication
Security investigations	Log correlation
Threat hunting	Cross-functional collaboration

Tools & Platforms

Brinqa	EPolicy Orchestrator
Cisco Talos	ProofPoint
Cisco Umbrella	Urlscan.io
Confluence	AirWatch
Google Chronicle	Jamf Pro
Legion AI	JIRA
Microsoft Azure/Entra ID	ServiceNow
Microsoft Defender for Endpoint	Google Threat Intelligence
Microsoft Sentinel	PowerShell
Tanium	OSINT Framework

Education

M.S. in IT Management - Western Governors University

(Capstone Excellency Award Recipient)

B.S. in Cybersecurity - Hallmark University

(Class of 2021 Valedictorian)
